| 1-5    | The student came to class and to the computer lab with all their materials: research, rough drafts, and writing utensils. | The copy contains 3 or fewer grammatical errors. | **25 points:** The trip route includes:  
  • a trip that last seven days  
  • mileage per day with a mileage marker  
  • state(s) where the river is located  
  • camping areas  
  • special locations or landmarks.  
  • rapids the rafters will encounter  
  • trails or hiking areas where the rafters can go on during the trip |
|        | The student completed the rough draft and discussed it with the rest of his/her group members. The rough draft was completed and given to the Media Specialist to be placed in the brochure. | The route is typed, organized, and neat when handed in. Pictures, fonts, and colors enhance the overall message and adds interest. | **5 points:** The student makes use of available Internet resources to locate correct information on the river, important landmarks, camping areas, the rapids, and mileage. |
