

Stat 447 Spring 2002

Instructor : Prof. Stephen Vardeman
304-D Snedecor Hall
vardeman@iastate.edu
<http://www.public.iastate.edu/~vardeman/>

Phone: 294-2535
Fax: 294-5040
Office Hours: 2 MTR (and usually after class as needed)

Assistant: Yun Lu
210 Snedecor Hall
luyun@iastate.edu

Phone: 294-2465
Office Hours: MW 4

Textbook: *Mathematical Statistics with Applications* (6th Edition) by Wackerly, Mendenhall and Scheaffer

Class Schedule: 3 MTRF in 38 Physics

Final Exam: 2:15-4:15 Monday May 6 (this is the "first meeting at 3 PM Tuesday" exam slot)

Course Grading:	Exam 1	25%	(around 2/21/02)
	Exam 2	25%	(around 4/4/02)
	Final Exam	40%	(5/6/02)
	Homework	10%	

Homework: Homework will be due on Fridays, at 5 PM at the TA's office. Vardeman will almost surely make assignments with both "problems to be turned in" and "additional suggested problems." Vardeman will ask the grader to prepare solutions for all problems and to mark (possibly a subset of) the "problems to be turned in." The solutions will be scanned and posted on the course homepage at:

<http://www.public.iastate.edu/~vardeman/stat447/stat447.html>

You may ask Vardeman for (limited) help with the problems. And you may discuss the homework with fellow students. But each individual must independently write up his or her own problems for turning in. This is an integrity issue. Do not copy what someone else has done and turn it in as your own.
