

Band of Brothers

Meeting Overview - January 13th, 2006

The Band of Brothers Meeting was very successful last Friday. The Brothers met in the Memorial Union Food Court and proceeded to room 233 to begin the meeting. There were 11 brothers in attendance and each of them was actively engaged in the discussion.

We initially informed the brothers of the goals and plans of the Band of Brothers and then had each of them give an introduction. From there we shared stories and situations experienced at ISU which have stood as obstacles on our path to Academic Achievement. It was a very productive discussion which allowed brothers to become acquainted with other individuals of similar interests, share experiences, network, and converse about both problems and accomplishments at ISU. The coordinators were also able to get feedback from the Brothers about activities and programs the Band of Brothers should establish in order to provide for their interests and needs. I feel confident in the interest of these brothers to embrace and expand the benefits and goals of the program.

Craig Barton
Band of Brothers Coordinator
