

CI 503 Theories of designing effective teaching & learning environment

Be an expert in the field ■ Gain an international dimension

Expand your learning in instructional design

Engage actively in the design, development, implementation and evaluation of instruction.

Collaborate virtually with graduate students from Aalborg University in Denmark.

Course description

- Introduction to theories and models of instructional design
- Design decision-making based on the analysis of performance problems and instructional inputs
- Applied design and development of instructional strategies

Pre-requisite: CI 501

Class meetings

Wednesdays ■ 5.10 – 8.00 pm ■ N047 Lagomarcino

Dr. Ana-Paula Correia ■ Center for Technology in Learning and Teaching, N031 Lagomarcino Hall, Iowa State University, Ames IA 50011-3192 ■ 515-294-9376
