ASSIGNMENT 3  
Due Monday, September 27

1. Do Exercise 3.10 on page 102 of textbook.
2. Do Exercise 3.13 on page 103 of textbook.
5. Do Exercises 3.22 and 3.23 on page 114 of textbook.

The data needed to do the exercises that require computing can be found on the course’s web site, under the Examples label.

Whenever the problem asks for estimating a population parameter (such as an intercept or a slope), please interpret the results in English, as if you were reporting those results to someone who does not know any statistics at all.
