MATH 268 (Laplace Transforms) Syllabus Spring 2010

Time: TR 9-9.50 AM. Course ends on March 5-th

Instructor: Domenico D’Alessandro
  Department of Mathematics, 440 Carver Hall, e-mail: daless@iastate.edu
  Office Hours: M 2-3 PM, TR 10-11 (in Carver 440).

Course Content:

- PART I: Laplace Transforms and their use in the solution of differential equations (Chapter 4).
- PART II: Power series methods in the solution of differential equations (Chapter 3).

Exams, Homework and Grades There will two home-work assignments the first one due on January 28-th and the second one due on February 25-th. There will be two in class tests; One on February 4-th and one on March 4-th. Grade will be decided as follows: 20 % Homeworks, 75 % Tests, 5 % in class attendance and participation.
