<sup>1</sup> Data for departments administered by two colleges are shown separately for each administering college.

Departments administered by Agriculture and Liberal Arts and Sciences: Biochemistry and Biophysics, Economics, Sociology, and Zoology and Genetics.

Department administered by Agriculture and Family and Consumer Sciences: Food Science and Human Nutrition.

Department administered by Agriculture and Veterinary Medicine: Microbiology, Immunology and Preventive Medicine.

<sup>2</sup> For undergraduates with more than one major, each of the majors is counted in each of the administering departments. Similarly, the bachelors degrees are counted in each department administering the major in which the degree is awarded. They are counted only once in the All Colleges and the University totals.

<sup>3</sup> Student credit hours are calculated by multiplying the course credit by the number of students enrolled in the course.

<sup>4</sup> FTE (full-time equivalent) is the portion of salary paid from departmental general university funds.

<sup>5</sup> The SCH per FTE ratios for the colleges exclude SCHs with no associated instructor FTEs; the All Colleges ratio also excludes Veterinary Medicine.
