NAME:_____

STAT 226, Section D—Quiz 2 (4 pts.)

According to the Recording Industry Association of America, sales of recordings in the United States were about $7 billion in 1990. Here is data on the sales (in billions of dollars) of the most popular genders of of music sold that year:

Rock	2.8	Jazz	0.4	Rap	1.4
Classical	0.3	Pop	1.0	Country	0.7

1. Present these data on a correctly labeled Pareto chart.

2. Would it also be correct to use a pie chart to display these data? If so, draw the chart, if not, explain why not.
