Citation Verifying Tips

**Citation Matcher** – NLM database for locating medical journal articles from bits of information in citations.

**Comptes Rendus** – information on tracking down journal citations in this series – short version & detailed version (Word documents)

**Conference Proceedings in the ISU Library**

**Gallica** – digitized full-text journal articles dating from the Middle Ages to the early 20th century. No search engine for journal articles.

**Inventory of the Oldest Scholarly Societies** (1323-1799), Abbreviations Used for the Journal Titles.

**Verifying Citations** – extensive guide from the University of Toledo

**Web of Science** – beware of author name misspellings. Use a variety of possible spellings with the Cited Ref search.
