

Volunteer Organizations

The following organizations regularly accept Soc 134 students as volunteers. However, it is your responsibility to arrange a volunteer appointment and schedule with them. Some agencies require training before you can begin. Some require a commitment of greater than 16 hours.

In order for you to receive credit for your course project, you must complete at least 16 hours of volunteering by the project due date (April 10). We will contact your volunteer supervisor to confirm your hours. You must also write a short paper, which is explained in the syllabus.

If you wish to volunteer at another off-campus organization, you must get approval from Sociology Central.
