

## Sample 4 Year Plan: Genetics

Notes: Students must have 120 credits to graduate and fulfill all area requirements. This is only a suggested outline plan. Students may choose or be forced to deviate from this plan to satisfy unmet requirements or to add a minor or double major. We strongly suggest student involvement in internships, study abroad, summer field stations, Iowa Lakeside Lab, Field Trips in Biology or research opportunities at ISU. These will enhance your program of study but may add credits or time to your degree plan.
