

Undergraduate Scholarships and Awards

The Statistics Club and the Department of Statistics participate in several programs that recognize scholarship and contributions to the Club, Department, College and University. Below are brief descriptions of each of the scholarships and/or prizes.

- **Statistics Club Award (\$200)** The award recognizes an undergraduate statistics major who has contributed to the Statistics Club and the Department of Statistics while demonstrating academic achievement and scholarship. The recipient shall be a junior or senior majoring in statistics. The recipient shall have at least 12 credits in statistics. The recipient shall have an overall G.P.A. of at least 2.5/4.0 and a statistics G.P.A. of at least 3.0/4.0. The recipient shall be an **active** member of the Statistics Club.
- **George W. Snedecor Undergraduate Statistics Award (\$500)** The award recognizes an undergraduate statistics major who has demonstrated superior academic achievement and scholarship. The recipient shall be a junior or senior majoring in statistics. The recipient shall have at least 12 credit hours in statistics, including a minimum of 9 credits at 300+ level. The recipient shall have a G.P.A. of at least 3.0/4.0 overall and a statistics G.P.A. of at least 3.5/4.0.
- **Schillmoeller Family Scholarship in Statistics (\$500)** The scholarship shall be open to undergraduate statistics majors with an overall G.P.A. of at least 3.2/4.0 and with demonstrated financial need.
- **Scott Kongable Undergraduate Statistics Scholarship (\$600)** The scholarship is open to sophomores and juniors majoring in statistics. The student shall have at least 9 credits of statistics classes by the end of Spring semester with an overall G.P.A. of at least 3.0/4.0 and a statistics G.P.A. of at least 3.25/4.0. Scholarship recipients must take 12 or more credits both semesters of the next academic year. Selection is based on G.P.A., extra-curricular activities and an interview.
- **Undergraduate Scholarship Sponsored by Procter and Gamble, Inc. (\$1000)** The scholarship is open to sophomores and juniors majoring in statistics. The student shall have completed MATH 165, 166 and 265 and at least 8 credits in statistics courses. The scholarship recognizes early academic achievement in the major of statistics.
- **Max Boehm Scholarship (Full in-state tuition)** The scholarship is open to all undergraduates, who are sophomores, juniors or seniors, majoring in statistics, who have financial need and are from challenging family backgrounds, representing a unique situation that might have prevented the recipient from considering a college education at Iowa State University. The student must have, and maintain, a minimum G.P.A. of 2.5/4.0 to receive the award.

Award Information Sheet

The Statistics Club and the Department of Statistics participate in several programs that recognize scholarship and contributions to the Club, Department, College and University. In order to apply for any or all of these programs, fill out the following information sheet.

Applicant's Name & ID#: _____

Local Address: _____

Email Address: _____

Local Phone: _____

Classification (circle): FR SOPH JR SR

Are you eligible for, or do you receive, financial aid? _____

Major(s): _____

Minor(s): _____

Overall GPA: _____

Statistics GPA: _____

List all statistics courses (IE/STAT 361 counts) you have taken and your grades in each course.
