Personal Web Pages

Iowa State University gives all students, staff and faculty space for their own web pages. For more information on policies and legal aspects of personal web pages see [www.iastate.edu/guide/legal/what.shtml](http://www.iastate.edu/guide/legal/what.shtml). Personal web pages at Iowa State have a common form for the URL.

http://www.public.iastate.edu/~userID/homepage.html

Your userID is the login name you use for your email address at Iowa State. For example, my e-mail address is wrstephe@iastate.edu so my personal web page is located at

http://www.public.iastate.edu/~wrstephe/homepage.html

In order to obtain space for your personal web page, you must register for it. To register for your web page you need to:

1. Go to the web site [https://asw.iastate.edu](https://asw.iastate.edu)
2. Login using your userID and password.
3. Click on Manage User userID.
4. Click on View/Edit your personal webpage settings.
5. Click on Register Web Page.
6. Click on Register.
7. Don’t forget to logout when you are finished.

Once you have registered for your webpage you will need to construct your webpage and post it in the space provided for it by Iowa State. We will talk more about this later in the semester.
